Do you support a ban on fracking in NZ?

Current evidence shows fracking is poisoning water, air, land and people.
What action will you take to protect our communities, the rights of future
generations and NZ's clean green reputation?

Fossil fuel mining pollutes our air, water and land, threatens local people's health and changes our climate. Fossil fuel companies sponsor public facilities and events to 'buy' their social license to operate.

Do you give them social license to drill and frack for oil/gas in NZ?
