

OMV

STOP MINING

Clean up your own mess

START MENDING

People power has shut down the NZ Minerals Forum in Kirikiriroa/Hamilton before it even started! The forum has been moved online to continue business as usual. But public pressure is mounting to shut down the extractive economy and move onto REGENERATIVE ECONOMY.

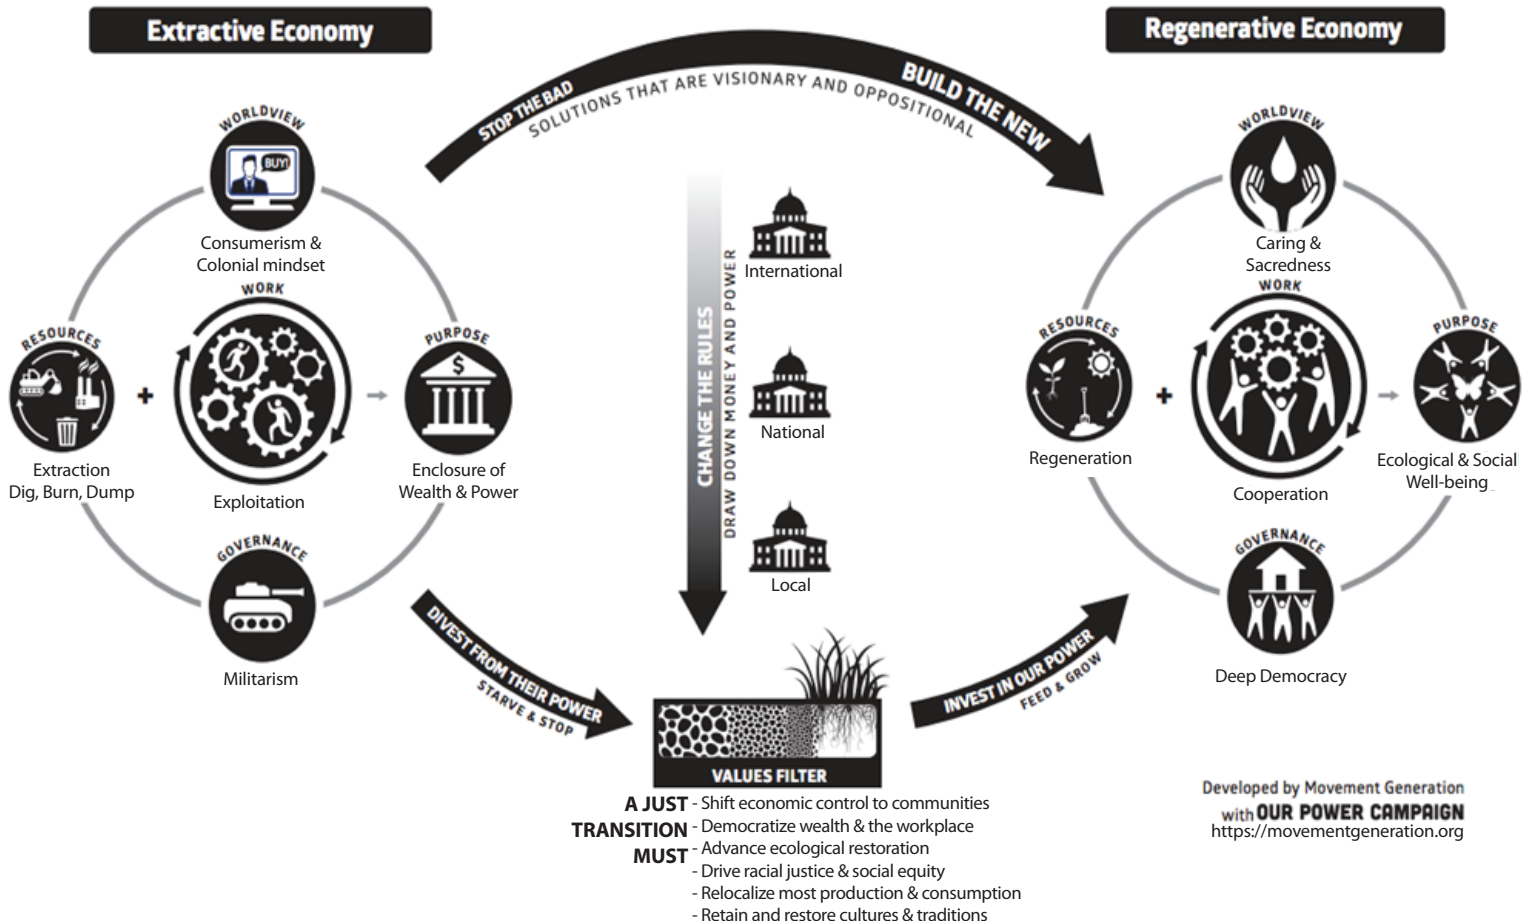

People and planet, not private profit!

We demand OMV to stop mining for oil and gas. Do not sell the depleted Maari oil field to Jadestone Energy or other companies to avoid decommissioning costs. Shut down all wells and clean up the mess!
